

KALBE ABID MEMORIAL SCHOOL

Recognized by U.P Government)

<https://kalbeabidschool.org/>

14, NOOR BARI SAADAT GANJ, LUCKNOW-226003

KEY FEATURES

Kalbe Abid Memorial (KAM) school Lucknow India established in the year 2000 with an objective of providing quality English medium education to the lower income minority group.

It is recognized by the UP government and follows the English Medium syllabus of **xxxx**

It has 25 Qualified Teachers and **384 students as on Date 179 girls 205 boys**

3000 students have benefitted from the institution and passed out since inception

A 3 story Building of 2000 Sqmtrs in NoorBari Locality . This which has a shia population of 5 Lakhs within a 6 km radius. Most of the families are low middle class and earn their livelihood by hand embroidery work. They have very low income and they are unable to afford fees.

KAM is a nonprofit school and charges fees only to cover the expenses of the school. This is approximately **1/3 of what is charged by other schools**

Students are provided an Islamic environment and Theology is a compulsory subject up to 8th Class

Achievements

- Ex Students have taken up higher education and are getting with good grades.
- One student has cleared NEET
- first batch of high school girls cleared their exam with 100%. 1st division score also with distinction marks.
- KAM won the 1st prize in nukkad natak inter school competition held at Unity degree college for past two consecutive years.

The school has also been under the 'Raabata school improvement program'. Mohammed Shoeb Founder Raabta says Quote *"We have done a thorough assessment of the school. Kalbe Abid is one of the highest performing schools. If it is giving scholarships to students I would highly recommend Kalbe Abid School"*

Unquote

SPACE PROBLEM

Each foot from the **2000 sqm** is fully utilised for the 384 students.

The classrooms are very crowded and the sound from one class disturbs the other.

A Madressa is also run in afternoon to use the space effectively

There is **no space for the following matters:**

- higher no of students as each year we are forced to **reject more 150 deserving** low income family students each year
- class-9 and 10 for girls because most of them don't get opportunity to study in another school because of high amount of fees charged by other schools.
- introduce math, science and a well equipped computer lab
- vocational education classes

APPEAL for Funding New Building

The new Premises will benefit 650 Children from the most poor Momineen families in Lucknow for the Long Term

We have located a Plot within 1 km walking distance of the existing school with partly constructed building which is available for INR 60 lacs and has a market value of INR 1 .2 cr

Markaz Talim Tarbiyat of Moulana Syed Mohd Abidi has already collected INR 30 lacs and will be the owner of the land for long term security and lease it to the school for a nominal sum

The balance amount of INR 50 Lacs ie. INR 30 lacs for plot and Rs 20 lacs for construction and furnishing is required

Khums ijaza is available but markaz would not like to use it for purchase of this land but only to complete building ,Can be shared on contact.
