CARE MAULOOD KIT

Status of a Mother in Islam

Islam has placed the status of the mother very high and has taken great care to protect her rights. A woman is not allowed to be married until she is a virgin and with Allah that she is a virgin. If a woman is not a virgin, she is not allowed to be married. If a woman is not a virgin, she is not allowed to be married. If a woman is not a virgin, she is not allowed to be married.
